	<p>Description: This class is for the student who is interested in learning how to paint with pastels and watercolor. We will spend some time on color study and basic drawing skills, working from photographs, live set ups and painting from the masters. In the fall, we will use pastels and in the spring, we move on to watercolor. God created us in His image and likeness. God is creative and because we are created in His likeness, we are also creative. You may find that your expression of what you see around you does not come from words, but rather with visual, artistic expression. We create to give glory to God.</p> <p>Exodus 35:31-33 "and He has filled him with the Spirit of God, in wisdom and understanding, in knowledge, and all manner of workmanship, to design artistic works, to work in gold, silver and bronze, in cutting jewels for setting, in carving wood and to work in all manner of artistic workmanship."</p>

	<p>Description: Students will learn the skills they need to create the linear illusion of depth (the third dimension) in their drawings with the use of vanishing points and orthogonal lines. We will create technically precise and impressive drawings that are the basis for architectural drawing (not to be confused with drafting) with the help of tools such as the t-square and triangle. The great thing about perspective drawing is that it can be learned by anyone, regardless of artistic ability or experience. And yet it is also an essential tool for those who already excel in art to take their creative work to the next level of sophistication.</p> <p>Note: This is not to be confused with architectural drafting (the making of blue prints). These days drafting is mainly done using AutoCAD. However, this class would be technical drawing in the sense that a t-square and triangle are used (in effect creating a drafting table situation) for precision.</p> <p>Some photos of drawings the beginner class accomplished by the end of the year:</p>  <p>"Whatever you do, work at it with all your heart, as working for the Lord, not for human masters," Colossians 3:23</p>

	<p>PROVIDED WITH MATERIAL FEE:</p> <p>DESCRIPTION (K-2nd; 1st-2nd): Get ready for an adventure as we set out to discover our amazing God! In this fun and faith-filled class, we will learn about God's marvelous qualities. Each week we will explore Bible stories to see what God has told us about Himself. There will be stories, crafts, and games that will help us learn and remember how great God is! Come join the adventure as we get to know our big, wonderful God! At the end of the year each child will have a colorful tool to bring home that will remind them of these truths. Children are encouraged to bring their Bibles to class.</p>				

<p>DESCRIPTION (3rd-5th): Calling all Treasure Hunters! We are going on a hunt for THE greatest treasure—knowledge of who God is. In this class, Treasure Hunters will search out God's amazing attributes and learn what they mean and why they are important. We will learn through Bible stories, crafts, and hands-on activities. Each week, Treasure Hunters will learn a different characteristic of God—such as His holiness, love, compassion, and so much more! The goal is to help us understand who God is in a way that's easy to understand and remember. At the end of the year Treasure Hunters will have a colorful treasure to bring home that will remind them of these wonderful truths about God. Children are encouraged to bring their Bibles to class.</p> <p>This class is designed to be on a rotation so that students do not repeat: Year 1: <i>The Jesus Storybook Bible: Every Story Whispers His Name</i> by Sally Lloyd-Jones Year 2: <i>More Than Words Notebook</i> by Rebecca Spooner/MasterBooks Year 3: Discovering God (The Attributes of God)</p> <p>Psalm 119: 105: <i>"Your word is a lamp for my feet, a light on my path."</i></p>

3 rd – 5 th	Bible: What's in the Bible? (3rd – 5th)	Corbett	\$0 tuition + \$25 materials	9:00 10:00	83034 83055
	<p>Description: What's in the Bible? will bring the Bible and its stories to your students in a whole new way! Over the course of two school years (4 semesters) kids will learn the WHOLE story of the Bible — from Genesis to Revelation – and experience God's Word through video clips, activities, songs, games, crafts and more!</p> <p>SEMESTER 1: Genesis, Exodus, Leviticus, Numbers, Deuteronomy: We will discover who wrote the Pentateuch, Creation, Adam and Eve, Noah, and the Tower of Babel. Then we will move on to Abraham, Isaac, Jacob and Joseph, and setting the scene for the next book, Exodus. This time it's all about Moses and the Israelites' harrowing escape from Egypt. Finally, we will finish the Pentateuch, the first 5 books of the Bible, and dive into the stories of the Israelites trying to follow God's rules as they wait to enter the Promised Land. Through the hard times, God is still faithful, even though the Israelites keep messing up.</p> <p>SEMESTER 2: Joshua, Judges, Ruth, 1 & 2 Samuel, 1 & 2 Kings, Chronicles: We will journey into the Promised Land as Joshua and the Israelites fight to make Canaan their new home. But the Israelites keep turning away from God, so he sends 12 judges, including Deborah and Samson, to point them back to the One who gave them the Promised Land, and learn all about the story of Ruth and Boaz. Next, relive the stories of Israel's kings-Saul, David and Solomon. David messes, but God makes him a big promise. David's son Solomon asks God for wisdom, but he doesn't always remember to put God first. Your kids will learn about pride, repentance and wisdom from Israel's three kings! We will finish the year following the nations of Israel and Judah as they go through 39 kings! Some of the kings follow God, and others try to do everything in their power to destroy God's people. Students need to be able to read and write well for this class. We will do all the work in class with very little homework.</p> <p>Year 1 Rotation: Genesis- Deuteronomy (Semester 1) and Joshua – 1 & 2 Chronicles (Semester 2) Year 2 Rotation: Ezra – Malachi (Semester 1) and Matthew – Revelation (Semester 2)</p> <p>John 12:46, <i>"I have come into the world as light, so that whoever believes in me may not remain in darkness."</i></p>

9 th – 12 th	Bible: Foundations	Ingolfsland	\$0 tuition + \$85 materials	10:00	89057
	<p>PROVIDED WITH MATERIAL FEE: <i>Foundations</i> by Summit Ministries</p> <p>Description: "What is truth?" Pilate asks of Jesus in John 18:38. In our world today, adults and students alike are challenged with this same query. Increasingly, even students raised in Christian homes and churches find that they are unable to confidently answer.</p>				

The book and curriculum *Understanding the Times* has, for two decades, sought to equip students with the foundational understanding of a Biblical worldview. In its newest iteration, beginning with *Foundations*, this effort has been updated and made stronger. From the publisher:

"In *Foundations*, the first of our four-volume set, we embark on a journey delving into the very essence of Christian belief, updated and meticulously crafted for today's students. Covering the nature and authority of the Bible, the profound narrative woven within its pages, and the core tenets of Christian living, *Foundations* equips students with a profound understanding of the Bible's metanarrative and its implications for personal and communal life."

Our class will focus on engaging high school students on this topic in order to lay the foundation on which to build a solid understanding of a Biblical worldview. While considered an elective class, this high school course-caliber curriculum will be conducted as an academic class, with assigned reading and discussion questions each week, and graded chapter review questions every other week.

9 th - 12 th	Bible: Apologetics	Ingolfsland	\$0 tuition + \$85 materials	12:30	89003

RECOMMENDED PRE-REQUISITE: Though not an essential prerequisite, it is **highly** recommended that students complete the *Foundations* course before taking *Apologetics*, as this study builds upon the concepts introduced in *Foundations*.

PROVIDED WITH MATERIAL FEE: *Apologetics* from Summit Ministries' *Understanding the Times* series

Description: In our world today, many Christians find it increasingly difficult to "...in your hearts regard Christ the Lord as holy, ready at any time to give a defense to anyone who asks you a reason for the hope that is in you." (1 Peter 3:15.) Our lifestyle full of entertainment, activities, and "tolerance" obscures the importance of having a ready answer to objections to the truth of Christianity.

This study, *Apologetics*, from Summit Ministries' *Understanding the Times* series, "provides guidance for defending and commending the Christian faith to others. It also demonstrates how the Christian worldview stands up to common objections to it in society today."

Our class will focus on engaging high school students on this topic in order to prepare them to confront arguments in opposition to the Christian faith with confidence and grace. While considered an elective class, this high school course-caliber curriculum will be conducted as an academic class, with assigned reading and discussion questions each week, and graded chapter review questions every other week. Though not an essential prerequisite, it is **highly** recommended that students complete the *Foundations* course before taking *Apologetics*, as this study builds upon the concepts introduced in *Foundations*.

6 th -8 th	Bible: Exploring the Gospels	Arocha-Rowe	\$0 tuition + \$65 materials	8:00	86008

PROVIDED WITH MATERIAL FEE: ESV Student Study Bible

DESCRIPTION: This class is designed for mature students who desire to have an intimate relationship with Jesus, *truly know Him*, and dive deep into the four Gospels, verse by verse (expository).

It's fascinating to know the Gospels were chosen based on their apostolic authority, theology, and widespread acceptance among the early church. These books were and are considered essential for conveying the message of salvation and nurturing the faith of believers. The purpose of each Gospel is key to comprehending their significance.

Matthew emphasizes Jesus' role as the fulfillment of Old Testament prophecy and presents him as the long-awaited Messiah to the Jewish audience.

Mark portrays Jesus as the suffering servant who came to serve and save humanity, emphasizing action and immediacy. Luke, the only Gentile author among the Gospel writers, emphasizes Jesus' compassion for the marginalized and presents him as the universal Savior for all people.

John, on the other hand, focuses on Jesus' identity as the eternal Word of God incarnate, emphasizing belief and eternal life.

	<p>In 2025-2026, this 6th - 8th grade Bible program will dive deep into Matthew and Mark, next year we hope to continue with Luke and John.</p> <p>Requirements for class: Completion of weekly homework reading and weekly class discussion. Students need to show up for class ready for discussion of the weekly materials read.</p> <p>2 Timothy 3:16, "All Scripture is breathed out by God and profitable for teaching, for reproof, for correction, and for training in righteousness."</p>

We will learn what it means to follow God's plan and design for human identity, meaning, purpose, marriage, male and female identities, and holiness. In seeking to follow God's design, we will at times learn how Scriptures define sexual sin, and learn how followers of Jesus can stand firm in society with love and truth. We will use Cahn's book as a historical text to study the social issues in our country today like abortion, pornography, fornication, same-sex relationships, transgenderism, and the love of money. This book is not graphic, and it helps us recognize these issues are part of a spiritual battle in America. Students will become equipped in what God's word says about these topics. These topics are addressed in a manner which encourages students to stand strong in following Jesus.</p> <p>Note for Parents: Teaching on these topics is always Biblically centered and discussed as cultural social issues. This class is intended for students who are prepared for open-Biblical teaching on these topics. We have found that students have confusion on these issues, and this class helps bring clarity, understanding, and commitment to follow Jesus' plan for our identity.</p> <p>Requirements for class: Completion of weekly homework reading and weekly class discussion. Students need to show up for class ready for discussion of the weekly materials read.</p> <p>2 Tim 3:15 – 17, "...you have known the Holy Scriptures, which are able to make you wise for salvation through faith in Christ Jesus. Each chapter of <u>What's It All About?</u> tells a story of a pivotal event of God's interacting with mankind. Through this overview, we begin to see the big picture and better know the God behind it all. The Endnotes offer detailed Scripture references for each event and topic helping students to better navigate through the Bible.</p> <p>Jer 29:13, "You will seek me and find me when you seek me with all your heart." 1 st -2 nd	Computer Science: Early Coding with Puzzles	Muscara	\$200 tuition + \$35 material fee	11:00 12:30	81004 81030
	No previous coding experience required.				
	SEMESTER 1 Description: An easy introduction to programming using puzzles. Students solve coding puzzles and get familiar with basic programming concepts such as sequencing, conditions and repetition using loops. To complete each level, you need to connect visual blocks in the right way. There are over 60 levels in fun adventures such as Codey's Quest, Lost in Space, Lazer Racer and Dragon Journey.				
	SEMESTER 2 Description: Solve more challenging puzzles and build simple projects. The Spring course contains more puzzles and also includes several lessons where students use Workshop to create their first working programs. Students that complete this course will be able to solve problems, build interactive scenes, use keyboard and mouse actions, play sounds and music, use speech bubbles, and move objects on the screen.

	No Previous Coding Experience Required. Students will begin at the appropriate course level for grade and experience.				
	An introduction to programming for beginners in upper elementary grades. Students progress through the lessons learning concepts in a game-like interface. To complete each lesson, students typically go through a concept review, solve a puzzle, run through a tutorial, build their own project, and take a quiz. They create interactive stories, animations, and mini-games to help Professor Ada battle Dr. Glitch! After completing this course, students will be able to build a wide variety of simple programs with events, loops, and some conditional logic.

Permission and ability to connect to the internet during class or students can install software outside of class. PRE REQUISITES: This class will progress at a pace appropriate for students as young as 6th grade with no prior experience, but may feel a little slow to a student with any experience with coding. Description: Students will learn the basics of programming while making simple video games using only code in the Python programming language. Concepts such as "string", "functions", "variables", "dictionaries", and "lists" will be discovered and integrated in the students' game. There will be small elements of game design sprinkled throughout the course to give concrete examples for the coding that the students will be learning. Homework will be required. 	<p>SEMESTER 1: LEGO® Robotics: WeDo 2.0 Junior: Students will be introduced to building with the lego technic style building system and using simple programming software. WeDo 2.0 Junior gives 1st-2nd grade students a hands-on, “minds on” learning experience that gives them the confidence to ask questions and the tools to find the answers and to solve real-life problems. Students learn by asking questions and solving problems. This class does not tell students everything they need to know. Instead it makes them question what they know and explore what they do not yet understand. If your student has previously taken a WeDo 2.0 class, some of the introductory lessons will be reviewed. An extra fun challenge will be given for students who have already mastered the building and coding concept.</p> <p>SEMESTER 2: LEGO® Robotics: Maker Junior: Students will have the opportunity to use their knowledge of push, pull and speed forces to design, build, test and share variations of given builds. Some of our projects will include building a trash truck, race car, and several animals. Some models are constructed as a team build and some are individually done. Some students will build more independently and others will require more help and instruction; this is expected and perfectly fine.</p> <p>1 Thessalonians 5:11, “Therefore encourage one another and build one another up, just as you are doing.”</p>

DANCE: Offered through Dance for His Glory at FBCW

**** Timothy Ministry partners with Dance For His Glory to offer dance classes on Tuesdays during TM hours of operation.**

Dance for His Glory will be offering dance classes for Timothy Ministry students again during the 2025-2026 school year. Current students can register through their dance portal on May 1. New students can register by clicking the link on the Timothy website, www.timothyministry.org > Resources > Dance For His Glory beginning May 13. Please contact D4HG with any questions regarding dance by email info@d4hg.com or phone 678-961-4433.

Description: Students MUST be the appropriate age for their class as of September 1 of the current school year. Dance classes are year-long and new students cannot join in the spring session.

TO REGISTER FOR A DANCE CLASS

1. You must FIRST REGISTER through www.d4hg.com to guarantee your time slot/class. Your dance class is not guaranteed until you receive confirmation from Dance For His Glory even though you may add it to your Timothy Ministry cart as a placeholder.
2. Once student is registered with Dance for His Glory, enter the dance classID listed below into your Timothy Ministry cart/schedule as a place holder in your student's day on our online registration system.
3. All dance fees are paid directly to Dance for His Glory.
4. K-2nd grade students must be walked by a parent to and from dance classes. Timothy Ministry does not transfer students to/from dance.

6th-8th	Elective: Adventures in Missions (6th-8th)	Moeller	\$200 tuition + \$65 materials	10:00	86057
<p>DESCRIPTION (3rd-5th): Join us as we travel around the world and read about the lives of missionaries and their adventures, as they share the good news of Jesus with others. We'll study the countries, food, music, language, dress and other parts of the culture through hands-on crafts, games and songs. Our year will also include prayer and simple ways to bless missionaries serving today.</p> <p>DESCRIPTION (6th-8th): Take a trip around the globe as we study missions, culture and geography through the lives of missionaries such as Hudson Taylor, Amy Carmichael and Gladys Aylward. Through hands-on learning, we'll experience the foods, dress, music, language and other aspects that make missions challenging and exciting. Together we'll meet, pray for and complete projects that will bless missionaries today. At the end of the year, you'll leave with a new understanding of the many aspects of missions, how you can serve missionaries, pray for and be a part of missions.</p> <p>Romans 10:13-15, "For everyone who calls on the name of the Lord will be saved." How then will they call on him in whom they have not believed? And how are they to believe in him of whom they have never heard? And how are they to hear without someone preaching? And how are they to preach unless they are sent? As it is written, "How beautiful are the feet of those who preach the good news!"</p>

*** Dairy, nut, egg, soy, gluten products and foods with dyes may be used. ***

*** STUDENTS WILL HAVE THE OPPORTUNITY TO EAT THEIR CREATIONS. ***

Description: This is a fun, unique blend of a hands-on cooking class and a reading class. Each week, we read a different children's story, and then we cook something together based on that story. For instance, we will read *If You Give a Pig a Pancake* and then learn how to make pancakes. Kids learn simple cooking skills, such as measuring, spreading, mixing, kitchen safety, oven and stove top use, as well as basic reading terms like fiction and non-fiction, author, and illustrator. Students will have the chance to eat what they have created each week. Reading is not required.

Your student can take Storybook Cooking for 3 years without any repetition. This year is a new theme/rotation.

PARENT TO PROVIDE: Students may occasionally need to bring in cookies and icing periodically throughout the semester (i.e. making the royal icing which would also require buying certain ingredients such as meringue powder).

*** Dairy, nut, egg, soy, gluten products and foods with dyes may be used. ***

STUDENTS WILL HAVE THE OPPORTUNITY TO EAT THEIR CREATIONS. ***

PROVIDED WITH MATERIAL FEE: Cookie decorating tips, piping bags, royal icing, etc.

This class is designed as an introduction to cookie decorating. Students will gain hands-on experience in various cookie decorating techniques, with a primary focus on royal icing, other icing types may also be explored. Key skills covered include flooding, outlining, as well as the use of edible markers, paints, and airbrushing. Additionally, students will develop an understanding of icing consistencies and their critical role in achieving desired results. Students typically conclude each semester with an engaging and enjoyable group activity.

Featuring quizzes and homework built in, you'll gain a deep understanding of chess strategy and master key concepts. Plus, chess is proven to boost cognitive skills such as problem-solving, concentration, and memory, making it a great way to keep your mind sharp. Take the critical thinking, problem solving, and analysis skills they have learned and apply them in daily life outside of chess. For 1 hour chess clubs, teachers play 1-2 videos (30 min) that students interact with and then students use those newly learned skills and play each other for the remaining 30 minutes. Instructor will also provide added instruction and interaction to help improve and build their chess skills. Chess sets will be provided for in-class play and competition; however, it's encouraged to purchase one for home so the whole family can learn to play.</p> <p>Lessons are taught interactively with animation to help visualize chess concepts. Questions asked throughout the lesson and quizzes afterwards help students practice the new strategies. Students also have access to 3 bonus tournaments each week against students across the nation. Enroll now to start your journey to becoming a chess master!</p> <p>Luke 2:52, "And Jesus increased in wisdom and stature and in favor with God and man."</p>

10 th -12 th	Elective: Critical Thinking 1 – When Students Ask Tough Questions	Bocchino	\$200 tuition + \$15 materials	11:00	89026
	<p>Students can repeat this class.</p> <p>Description: This course is designed to help students evaluate and navigate the cultural and social landscapes that encourage doubt and uncertainty. When students ask tough questions, or express their doubts and share their uncertainty about Christianity, it indicates that they are "thinking for themselves." It is extremely important that we use this time to help them to think for themselves with respect to their faith.</p> <p>Students will discover for themselves the answers to some of the most fundamental questions of life. Questions such as: the origin of the universe and life, the existence and nature of God, the nature of truth, morality, good and evil, and the only question that really matters – who is Jesus and why do Christians believe He is the only way to God?</p> <p>Mr. Bocchino's Philosophy of Teaching: My philosophy of teaching is based upon the critical and constructive thinking skills and communication method used by Jesus. Students will take a journey with me into "The Mind of Christ" to discover for themselves how Jesus used certain principles of thought to get to the "truth-principle" that guided correct thinking about any issue. Jesus used the "self-discovery" aspects of teaching and communicating not by directly answering questions, but rather by responding to questions with the use of "principle - centered" questions. Jesus never hesitated to respond to controversial issues or tough questions. However, he very rarely answered a question with an answer. Rather, he responded to questions with questions.</p> <p>The adjacent table shows a clear distinction between "Information Centered Thinking" (fact-based) and "Principle-Centered Thinking" (principle-based). It is a paradigm shift from "what to know" to "how to know"—from "what to think" to "how to think."</p> <p>This philosophy of teaching takes students beyond the sphere of fact gathering for memorization and recall. It takes them into the realm of true learning as they discover how to think through the facts for themselves (reflective process) by applying truth- principles (self-evident truths) to the issues being discussed.</p> <p>My standard for measuring progress is based how well students understand that every issue and question is based upon a truth principle (if true) or a false assumption (if false). They will also learn how to ask the right questions about the issue or question in order to discover the truth principle or false assumption. If done correctly, the truth will rise to the surface for self-discovery and the false assumption will be exposed or self-destruct. This is exactly how Jesus handled tough questions and controversial issues—by responding with "principle-centered" questions.</p> <p>It is my prayer and strong belief that this course will provide a lasting foundation for students to face those philosophies opposing the Gospel of Jesus Christ. It is also my prayer that this courses will build the right kind of confidence in each student in order to defend and share his or her faith.</p> <p>Matthew 11:3 -John, sent his disciples to ask Jesus, "Are you the one or should we expect someone else?"</p>

	<p>PROVIDED WITH MATERIAL FEE:</p> <ul style="list-style-type: none"> • <i>Unshakable Foundations: Contemporary Answers to Crucial Questions about the Christian Faith</i> by Norman Geisler & Peter Bocchino <p>Description: This course is designed to help students evaluate the ideas and philosophies that confront them now, but especially when they get to college. Students will learn how to "think for themselves" in such a way that they will know why the Christian Faith is academically sound. Students will learn how to "think on their feet" during interactive role-play settings engaging me as their atheist professor. They will also learn how to analyze and write critiques of articles written by atheists, skeptics, and other opposing viewpoints to the Christian worldview.</p> <p>This course emphasizes first principles (self-evident truths) as the foundation for all academic studies and show how they are anchored in the nature and attributes of the God of the Bible. The course will cover five major academic disciplines: Philosophy, Science, Legal Theory, Justice, and Morality. Students will also learn how to develop a framework for Discovering Purpose and Meaning in this fallen-world as they head off to college.**</p>

	SEMESTER 1 LEGO® BricQ: Train to Win Description: Train to Win will give your students an understanding of forces and motion as they plan and conduct investigations about the cause and effect of push and pull forces. They'll work toward determining whether design solutions work as they were intended to change the speed or direction of an object with a push or a pull. Students must be mature enough to listen and follow directions. Some models are constructed as a “class build” and some are individually done. Some students will build more independently and others will require more help and instruction; this is expected and perfectly fine. SEMESTER 2 LEGO® BricQ: Maker Junior Description: Maker Junior will give K-2nd students the opportunity to use their knowledge of push and pull forces to design, build, test and share maker projects. Some of our projects will include making a new game, building a mechanical toy, and creating a team mascot. Students must have taken “LEGO® Building”: Train to Win and be mature enough to listen and follow directions. Some models are constructed as a “class build” and some are individually done. Speech and Debate also offers a great place for homeschool parents to build community with other like-minded parents. Through participation in our class, outside class lab meetings, and tournaments, families will discover a community of supportive students and parents committed to the mission of helping all of us become better communicators for Christ.

We encourage parents to review the Stoa website to understand their forensics-based mission and discover what makes this organization reputable: <https://stoausa.org/> and <https://bit.ly/STOAInfoTMFamilies>

Plus, visit <https://www.stoausa.org/to> register your student, learn more on their tournaments and their guidelines.

PLEASE NOTE: The Stoa registration + tournament fees are the responsibility of each family. Each family is responsible for their own travel, lodging, and student's professional attire. Students are encouraged to attend two or more Stoa speech and debate events throughout the year.

1 Peter 3:15 "...but in your hearts honor Christ the Lord as holy, always being prepared to make a defense to anyone who asks you for a reason for the hope that is in you; yet do it with gentleness and respect..."

Lab Requirement: Students are required to attend one, two-hour labs each semester to prepare for tournaments.

Tournament Requirement: Students are required to attend one Stoa tournament throughout the year; encouraged to attend two tournaments per school year. Stoa has a huge presence in the state of Georgia, and we are blessed they have multiple local tournaments.

	Description: We will no longer be offering TOM (Teens on Mission) as a club for 7 th -12 th graders at Timothy Ministry; however, we would still like to keep our focus on glorifying God through serving those around us. Instead of having regular monthly meetings, there will be various opportunities throughout the year to participate in service projects. There will be 1-2 projects per month- some opportunities on campus and others out in the community. A tentative schedule will be released at the beginning of each session and opportunities will be announced in the weekly Timothy e-mails. 1 Peter 4:10, "Each of you should use whatever gift you have received to serve others, as faithful stewards of God's grace in its various forms."

<p>Description: This class is designed to teach the methods by which cinematographers create the art of visual storytelling in filmmaking. We will discuss the formal elements of film (including mise-en-scene, cinematography, editing, and sound) and all of the nuances of their application. Through viewing carefully-selected movie clips in class, students will also learn to recognize and understand the tools used to communicate unspoken messages to the viewer. As the course progresses, students will use their working knowledge of these tools to personally analyze and write about pre-selected scenes as well as work in groups to plan and create storyboards for shooting a scene from a screenplay. No actual camera work will be done in this class, but students will need access to a computer at home to complete some assignments. This class will involve homework, quizzes, group projects, writing assignments, etc.</p> <p>This class could be considered an English elective due to the writing that will be involved with the class.</p> <p>The heart behind this class is to help students understand how powerful film can be in communicating and swaying opinion - and thus encourage them to be discerning about the messages that are being presented and careful to guard themselves from ungodly influences.</p> <p>Matthew 10:16, "Behold, I am sending you out as sheep in the midst of wolves, so be wise as serpents and innocent as doves."</p>

<p>Description: This course uses the process of communicating verbally to bridge the gap to written communication. We begin by understanding why we communicate verbally, then understanding why written communication is beneficial. Speech bubbles are used at this point to see the spoken word written. Next, we give them a visual framework to understand sentence structure, including capital letters at the beginning of a sentence and periods at the end. Proper and common nouns, verbs, descriptive words, etc will be covered using pictures, fun activities, and sentence frames to help students solidify the purpose of the basic parts of speech. <i>Framing Your Thoughts</i> and <i>Poems Every Child Should Know</i> is the curriculum used. No curriculum purchase is necessary.</p> <p>Col 2:2-3 "I want their hearts to be encouraged and joined together in love, so that they may have all the riches of assured understanding, and have the knowledge of God's mystery- Christ. 	<p>Description: The Yearbook Class gives students a wonderful opportunity to see and participate in all that goes on behind the scenes of putting together the Timothy Yearbook. It is truly a team effort which involves gathering photos, quotes, surveys, etc. and assembling them creatively in a book celebrating our school year together. Students drive the creative process from the first day and get to hand out the finished product at the end of the school year.</p> <p>Yearbook is a graded class. Students will fill out a questionnaire to hand in on the first day of Timothy. This will aid the advisor in organizing the class into groups according to students' creative interests and experience as well as determining leadership positions. A student MUST have a laptop or home computer to complete the assignments, and he/she also must be able to manage deadlines and complete assignments on time. This project is a team effort and requires a level of commitment that may not be attainable for students struggling in academic classes.</p> <p>A student MUST have a laptop or home computer to complete the assignments.</p> <p>High School Credit: This class is eligible for (1) credit in Journalism</p> <p>Colossians 3:23: "Whatever you do, work at it with all your heart, as working for the Lord."</p>

Students will spend approximately 5 hours a week in course study, meeting the minimum 150 hours of study for a foreign language credit.</p> <p>For students who have completed ASL 1, this class will develop ASL fluency in a wider array of situations, advance ASL comprehension, and increase awareness of Deaf culture. This class will complete the student text <i>Signing Naturally</i> Units 7-12, and will also work through ASL online material from LifePrint by Bill Vicars. Other internet materials and videos will also be incorporated.</p> <p>Students will be required to interact with the teacher and students in ASL, interpret ASL, and also to write essays on Deaf Culture topics.</p> <p>Requirements: Technology: Students will be required to have access to the internet and a Timothy Google account. All homework will be uploaded on Google Drive and linked in LMS. Students must post videos of themselves on Google Drive for testing evaluation. Students must interact with other students outside of class in labs and sometimes in a video chat like Facetime, Zoom, or Skype. The student workbook uses accompanying videos which can be accessed online with the book's access code, or the videos can be seen on the accompanying DVD.</p> <p>Lab Requirement: This course includes 1 hour per week class time, online instruction and assignments, plus 14 ASL labs at FBCW on select Fridays, 10:30-12:00 p.m., throughout the year. Labs are held approximately every other week and</p>					

are critical to the mastery of ASL.
(Note: The last lab each semester will actually be a **Silent Event** held during lab hours.)

GAPS IN SCHEDULE

****Gaps in a student's schedule must be filled with one of the options listed below.****

B-Foyer Free Time					
Grade	Class Title	Instructor	Costs	Time	ClassID
9 th – 12 th	Gap: B-Foyer Free Time	B-Foyer Monitor	\$0 tuition + \$0 materials	Max of 2 hours	
<p>Description: FOR HIGH SCHOOL STUDENTS ONLY - If your student has a gap between classes during their day and they are staying on campus, you must register them in a "B-Foyer Free Time" placeholder during that time.</p> <p>**There is a limit of 2 hours of B-Foyer enrollment for each student**</p> <p>Due to the time changes and the combinations of classes that can be taken, there will be high school and middle school students with gaps in their day; therefore, we will be allowing high school students to hang out in the B-foyer during gaps.</p>					

However, a student cannot be scheduled for more than two consecutive hours in the B-foyer. Our desire is to give them a little bit of social time that they greatly desire and do not currently get on Tuesdays when they have a full day's schedule. We will provide a monitor in the B-foyer with a list of times and names of students and will ask students to sign in each week with the monitor (we have to still provide accountability in case of an emergency). Non-compliance (roaming, misbehavior, etc) will result in that student being assigned to study hall during any and all breaks (one student will not ruin the privileges of many).

If you desire for your high school student to use any free time for homework, you may still register him/her for study hall.

PLEASE communicate to your student that during any gaps, he/she must report to the B-foyer outside of gym, sign in with monitor, and remain in that area until the next class. Students cannot be roaming the campus. While allowing a little bit of freedom and socialization, we still need help in making sure they report in with the B-foyer monitor each week. We will be providing the B-foyer monitors with a list of students who should be reporting to them each week. Students who choose not to comply will be placed in study hall each week for the remainder of the session.

Please take a moment to consider whether your student is mature enough to meet the expectations of the B Foyer environment. This time is treated like a class, and attendance is recorded. Students are expected to sit in groups of no more than eight per table and maintain a quieter, more library-like tone throughout the period.

We also want to kindly remind families that older students should not be on campus unless they are enrolled in a class or B Foyer. If there is a special one-time circumstance where your student needs to arrive early or stay late, please stop by the office upon arrival to request permission, or email us in advance to request permission.

If your student is enrolled in B Foyer, consistent attendance is expected—this is not a casual drop-in option to be used occasionally. As with any class, appropriate behavior is essential. If a student is unable to meet these expectations, we reserve the right to withdraw them from B Foyer. In that case, parents would be responsible for picking them up during that hour, so we ask that you ensure B Foyer is a good fit before enrolling.

K-1 st	Geography: Where in the World Am I?	Mori	\$200 tuition + \$25 materials	9:00 10:00	81002 81019
	<p>Description: Maps! And Globes! And Atlases! Oh my! This beginning geography class will introduce kindergarten children to the fascinating world of maps and globes and teach how these items relate to the world around them. The beginning of the semester will be spent learning about the basics of geography: positional words and cardinal directions; parts of a map and different types of maps; how to follow a map and how to make a map; and exactly where in the world are we, anyway? As the semester progresses and continues into the second semester, we will add to our learning as we study landforms, bodies of water, continents and oceans. We will apply what we have learned and are learning as we "visit" the continents discovering the amazing variety of habitats found on each continent. We will use stories, art, games and science to enhance our learning. Reading is not required.</p> <p>Colossian 1:6, "For by Him all things were created, both in the heavens and on earth, visible and invisible, whether thrones or dominions or rulers or authorities—all things have been created through Him and for Him."</p>

	<p>Description: Join us as we learn the states and capitals that make up our "One nation under God." We will learn about each state in the order of statehood. As we color a national map region by region, we will "watch" our nation grow right before our eyes and see how the geography of our nation impacted its growth. We will learn about many interesting people and places. Their stories will help us learn the importance of Christian values, developing godly character, and patriotism. During this year-long class, your student will create an interactive notebook that will include cut-and-paste items, printed pictures, drawings, and maps. Though written work will be minimal for this age group, your child should have the ability to copy a few words from the board. We will add to our learning through stories, games, music, and crafts.</p> <p>1st and 2nd grade 2-year geography rotation and may be taken in either order within this age group:</p> <ol style="list-style-type: none"> 1. 	<p>PARENT TO PURCHASE:</p> <ul style="list-style-type: none"> • ABeka, <i>History of the World</i>, #183202 at www.abeka.com. Fifth Edition <p>Description: Deuteronomy 32:7 states that we are to "remember the days of old; consider the years of many generations; ask your father, and he will show you, your elders, and they will tell you." In the times of the Old Testament, this verse instructed new generations in Israel to study and learn the complex history of their amazing nation. In much the same way, people in today's modern society can also gain understanding from an in-depth study of world history. For example, have you ever wondered how the hand of God is revealed through the history of mankind? Perhaps you have heard the saying, "all history is HIS-story," but you are unsure of its precise meaning. God seeks to reveal himself throughout human history so that all people might receive the blessed work of his salvation. Overall, I pray the study is engaging and enlightening to each one of you regarding God's revelation of Himself throughout the ages.</p> <p>Class Details: History of the World leads students on a year-long survey of events from Creation to the early 21st century. We will discover the ongoing cycle of pride - rebellion - humility - redemption as we see God's hand in human events. In-class work will focus on chapter review through PowerPoint presentation, discussion of weekly content with an emphasis on historical analysis, and group activities. Homework will include textbook reading, journal entries, online discussion boards, and quizzes. Unit and semester tests will generally be given in class. 	<p>Description: From its inception as the last American colony to its position as a vibrant jewel of the South, Georgia's history, while mirroring that of America at large, is a unique and fascinating story. This class will focus comprehensively on the geography, culture and history of our home state from its early inhabitants to modern events.</p> <p>The course will use the "GPB Georgia Studies" digital textbook. Students will need access to the internet to complete "At Home" reading assignments, and our time in class will focus on digging deeper together into important people, events, and places throughout our history.</p> <p>Assignments will be given over Christmas break. This is a full year history course.</p> <p>7th and 8th grade, options that may be taken in either order within this grade range:</p> <ul style="list-style-type: none"> • ABeka, <i>History of the World</i> • <i>Georgia History</i> <p>Psalms 103:12, "As far as the east is from the west, so far does he remove our transgressions from us."</p>

World Geography involves the study of God's world including all His people. During the first semester, the students will learn about the foundations of geography, North America, and South America. During the second semester, students will continue their study by focusing on Africa, Asia, Australia, and Europe. The class will participate in various hands-on activities to assist students in learning the required material which includes graph, chart and map skills. This course is taught with an emphasis on missions, looking at the spiritual make-up of selected countries and the missionaries who serve there. Students will leave the class better equipped at making Biblical decisions regarding global issues, whether they be social, economic or political. Weekly homework is required. While limited assignments will be given over the Christmas break, students will be given the opportunity to complete them over a longer course of time.</p> <p>Rev. 7:9-10 , "After this I looked, and behold, a great multitude that no one could number, from every nation, from all tribes and peoples and languages, standing before the throne and before the Lamb, clothed in white robes, with palm branches in their hands, and crying out with a loud voice, "Salvation belongs to our God who sits on the throne, and to the Lamb!"</p>

In the times of the Old Testament, this verse instructed new generations in Israel to study and learn the complex history of their amazing nation. In much the same way, people in today's modern society can also gain understanding from an in-depth study of world history. For example, have you ever wondered how the hand of God is revealed through the history of mankind? Perhaps you have heard the saying, "all history is HIS-story," but you are unsure of its precise meaning. God seeks to reveal himself throughout human history so that all people might receive the blessed work of his salvation. 	<p>Description: “Music for Young Mozarts” is an excellent introduction to music for young children. This is a comprehensive approach to musical learning that develops singing, movement, and listening skills simultaneously with an introduction to musical styles and concepts. Children will learn music reading skills through the fun adventures experienced with Freddie the Frog and his best friend Eli the Elephant! Instruction will include hands-on music experiences with our voices, Boom Whackers, and rhythm instruments to tangibly reinforce music concepts learned. This class lays the foundation for future music classes and playing musical instruments. Previous students welcome to return!</p> <p>Psalms 98:4, “Make a joyful noise to the LORD, all the earth; break forth into joyous song and sing praises!”</p>

	<p>Description: This basketball class is designed for students in grades 7–12 who want to develop their skills in a structured yet game-focused environment. Throughout the semester, the primary emphasis will be on playing full-court and half-court games, fostering teamwork, sportsmanship, and strategic thinking.</p> <p>At the beginning of the course, students new to basketball will receive guidance from two experienced assistants who will lead fundamental drills and explain key rules to ensure all participants reach a level where they can actively engage in gameplay. These assistants will also help organize and initiate games, ensuring smooth transitions and balanced teams. While the class will be overseen by monitors to ensure safety and fair play, the majority of the session will be dedicated to structured games, allowing students to apply their skills in real-time scenarios. This format encourages both individual growth and team dynamics, making it an ideal setting for players of all skill levels to improve while enjoying the sport.</p> <p>Class Focus Verse: <i>"Do nothing from selfish ambition or conceit, but in humility count others more significant than yourselves."</i> — Philippians 2:3 (ESV)</p>

	<p>In addition to tuition and Material Fees, each semester through Gold Belt and then annually after Gold Belt, an additional fee or items will be required to be purchased and paid directly to HCMA (Higher Calling Martial Arts)</p> <p>Belt Ranks order is: White Belt, White Senior, Yellow Belt, Yellow Senior, Gold Belt, Gold Senior, Orange Belt, Orange</p>				

Senior, Green Belt, Green Senior, Blue Belt, Blue Senior, Purple Belt, Purple Senior, Red Belt, Red Senior, Brown Belt, Brown Senior, then the various degrees of Black Belts.

ADDITIONAL MATERIAL PURCHASES / FEES (PAID DIRECTLY TO HCMA):

• Based on student rank / semester of training. Required purchases / fees due are paid for at the beginning of each semester.

White Belt / first semester - Higher Calling Martial Arts Uniform (\$55 - includes uniform pants, jacket and white belt)

White Senior / second semester (then annually) – Annual HCMA / UMA Membership FEE (Family Discounts Available: \$20 1st family member, \$15 each additional) Students may but are not required to purchase hand gear once they are white senior in rank, however, both hand and foot gear are required the semester students begin as a yellow belt.

Yellow Belt – Higher Calling Martial Arts Safety Gear (\$75 for the set of hand and foot gear) -

Gold Belt – Uniform Patches. (\$25 for the set of 4 patches)

BELT TESTING: Belt Testing is how students are able to learn additional techniques and rank up in belts. This is not required, but is **STRONGLY RECOMMENDED** to continue their progression. Testing is offered at Timothy Ministry 1x per semester and is held during regular class times. (Family Discounts Available: \$60 first family member and \$30 each additional paid directly to HCMA).

Testing fees are due the day of testing unless other arrangements are made. Students not testing will still be getting physical exercise and continue to improve their current techniques.

An HCMA t-shirt is available as for optional purchase for a “summertime” uniform (martial art pants, t-shirt, and rank belt). T-shirt in place of the uniform jacket can be worn at the beginning of the fall semesters and end of the end of the spring semesters.

DESCRIPTION: Classes consist of a multiple belt ranked students in the same class. Higher Calling Martial Arts is an affiliate of Christian Martial Arts Council. We teach students a martial art based of the traditional Korean martial arts that have been designed to benefit all areas of the human body. Our form has been developed with the assistance of physical therapists, chiropractors, and medical doctors. We use only easy to learn techniques that do not include any twisting or locking out of joints - as this can be damaging to the student's body.

- Our techniques are not only good for student's physical and mental development, but also are extremely effective in self-defense because they use sequential movement of the entire body, enhancing the power behind each technique.
- We also realize and foster the spiritual development of each student and help them to set and achieve goals not only in martial arts but other areas of their lives as well.
- Our classes are taught in an encouraging fun manner emphasizing that students are only expected to do “their” best and will never be compared to other students.

If Martial Arts is your student's first class, they may arrive in their uniform, then change into their Timothy Ministry uniform after class. Otherwise, students will need to change into or pull their uniform over their regular clothes before and after classes.

Class Focus Verse: Galatians 5:22-23a, “But the fruit of the Spirit is love, joy, peace, patience, kindness, goodness, faithfulness, gentleness and self-control.”

2 Timothy 1:7, “For the Spirit God gave us does not make us timid, but gives us power, love and self-discipline.”

SEMESTER 1: Animals/Plants/Electricity/Magnets” Description: This session we will study animals and plants for the first part of the session and finish with a study of Physics through electricity and magnets. Join us as we learn through hands-on activities with each lesson. Students are not required to read, but will need to be able to write (copy) independently. SEMESTER 2: Astronomy/Rocks/Chemistry Description: This semester we will study the solar system and rocks. We will finish up the semester with a brief look at Chemistry as we create and explore reactions. We will learn about planets, moon, Earth’s layers, rocks, fossils, and matter. Join us as we learn through hands-on activities each week. Students are not required to read, but will need to be able to write (copy) independently. 2-year rotation of classes so that students do not repeat the same material while in this grade range: Year 1: Study of Animals/Plants/Electricity/Magnets and Astronomy/Rocks/Chemistry Year 2: Study of Human Body/Physics through simple machines and Water Cycle/Weather/Chemistry to include water, mixtures, solutions, and air. Class Focus Verse: Jeremiah 32:17, “Ah, Lord God! You have made the heavens and the earth by Your great power and outstretched arm. There is nothing too difficult for You.”

In the fall semester we will study concepts in physics such as speed, acceleration, simple machines, magnets, and light. Each class consists of a topic introduction with a lab that is related to the topic. The spring semester will be covering topics in chemistry such as atoms, the periodic table, bonding, and chemical reactions. We will have time each class for lecture and learning followed by a lab or activity for reinforcement of the concept. Assignments will be given over Christmas Break.</p> <p>Psalm 111:2, "Great are the works of the Lord; they are pondered by all who delight in Him."</p>

Description: The course covers significant figures, units, classification, the mole concept, stoichiometry, thermochemistry, thermodynamics, kinetics, acids and bases, redox reactions, solutions, atomic structure, Lewis structures, molecular geometry, the gas laws, and equilibrium.						
FRIDAY LAB DAY Description (included in tuition costs): Students will bring questions/homework/ lab reports for assistance with math calculations, lab reports and graphs.						
Depending upon the needs of the students, teacher may have a review over the current material at the beginning of the class. Topics that will be covered in the lab will include but not be limited to: converting measurements, comprehension of the periodic table, writing and balancing chemical equations, chemical calculations, stoichiometry, chemical thermodynamic equations, and understanding and identifying redox reactions. These topics will be discussed during class time on Tuesdays and a lab will be performed in class on Tuesday that is relevant to the material. Assignments will be given over the Christmas break.						
There will be no actual chemistry lab during this Friday time. It will be a time to further explain the above listed concepts and provide extra practice that is needed for full comprehension.
